OBJECTIVE

Aspiring Software Developer with a strong foundation in full-stack development, cybersecurity, and problem-solving, seeking to contribute to building scalable and secure applications. Passionate about developing real-world solutions using modern technologies like Flutter, React.js, and cloud platforms.

EDUCATION

B.E. in Artificial Intelligence and Data Science
SIES Graduate School of Technology, Mumbai University
2023 – 2027

SKILLS

- Languages: Python, JavaScript, SQL
- Frameworks/Technologies: Flutter, React.js, Firebase
- Databases: MySQL
- Cloud & Tools: AWS (Elastic Beanstalk), Git, GitHub
- Core Concepts: Data Structures & Algorithms, Networking, Cybersecurity Fundamentals, System Design Basics
- Other: REST APIs, Authentication Systems, Debugging & Testing

ACHIEVEMENTS

- Solved 180+ Data Structures and Algorithms problems on LeetCode
- Built and deployed multiple real-world applications independently
- Strong self-learning track record with hands-on project execution

PROJECTS

Cloud-Based File Sharing Web Application (AWS Deployed)

- Developed a secure file-sharing platform deployed on AWS Elastic Beanstalk
- Implemented authentication, file upload/download, and user-specific file access
- Integrated error handling and file validation (size/type restrictions)
- Designed scalable backend architecture and dynamic UI updates

File Integrity Monitoring System

- Built a system to detect unauthorized file changes using hashing techniques
- Strengthened understanding of cybersecurity concepts like data integrity and threat detection

Warehouse Management System (Flutter App)

- Created a mobile application for inventory tracking and warehouse operations
- Integrated Firebase for real-time database and authentication
- **Focused on efficient UI/UX and performance optimization**

Placement Preparation Platform (Ongoing)

- Developing a platform for students featuring SQL, DSA, system design, and AI-based mock interviews
- Implementing AI-driven feedback and structured learning modules

CERTIFICATIONS

- Google Cybersecurity Professional Certificate – Coursera
- Introduction to Cybersecurity – Cisco
- App Development Using Flutter – Udemy
- RAG Workshop (Completed)
- Cisco Networking Certification (In Progress)

EXTRACURRICULAR ACTIVITIES

- Social Media Coordinator - CSI SIES GST
- Extended Volunteer -ACM student Chapter SIES GST

PERSONAL DETAILS

- Location: Mumbai, Maharashtra
- Languages Known: English, Hindi, Marathi
- Interests: Cybersecurity, App & Web Development, Problem Solving, System Design
